

Provider Ecosystem Accelerator

End-to-End Digital Automation - Contracting to Claims Processing

What Is A Provider Ecosystem?

Business Benefits

Data Quality & Management- Eliminate multiple touch points by leveraging a comprehensive quality process with predefined business rules

Optimize Processes- Enable standardization and process automation beginning with contract initiation to claims processing

Hyperautomation- Ensure utilization of Robotics Process Automation (RPA) and Artificial Intelligence (AI) for processing large complex rosters with business rules for quality data

Enhanced Transparency- Leverage real-time dashboards for enabling transparency and visibility into user-based reporting

Benefits of Provider Ecosystem Accelerator

Improve Star Rating

Boost HEDIS Scores

Enhance Market Scalability

Reduce TAT

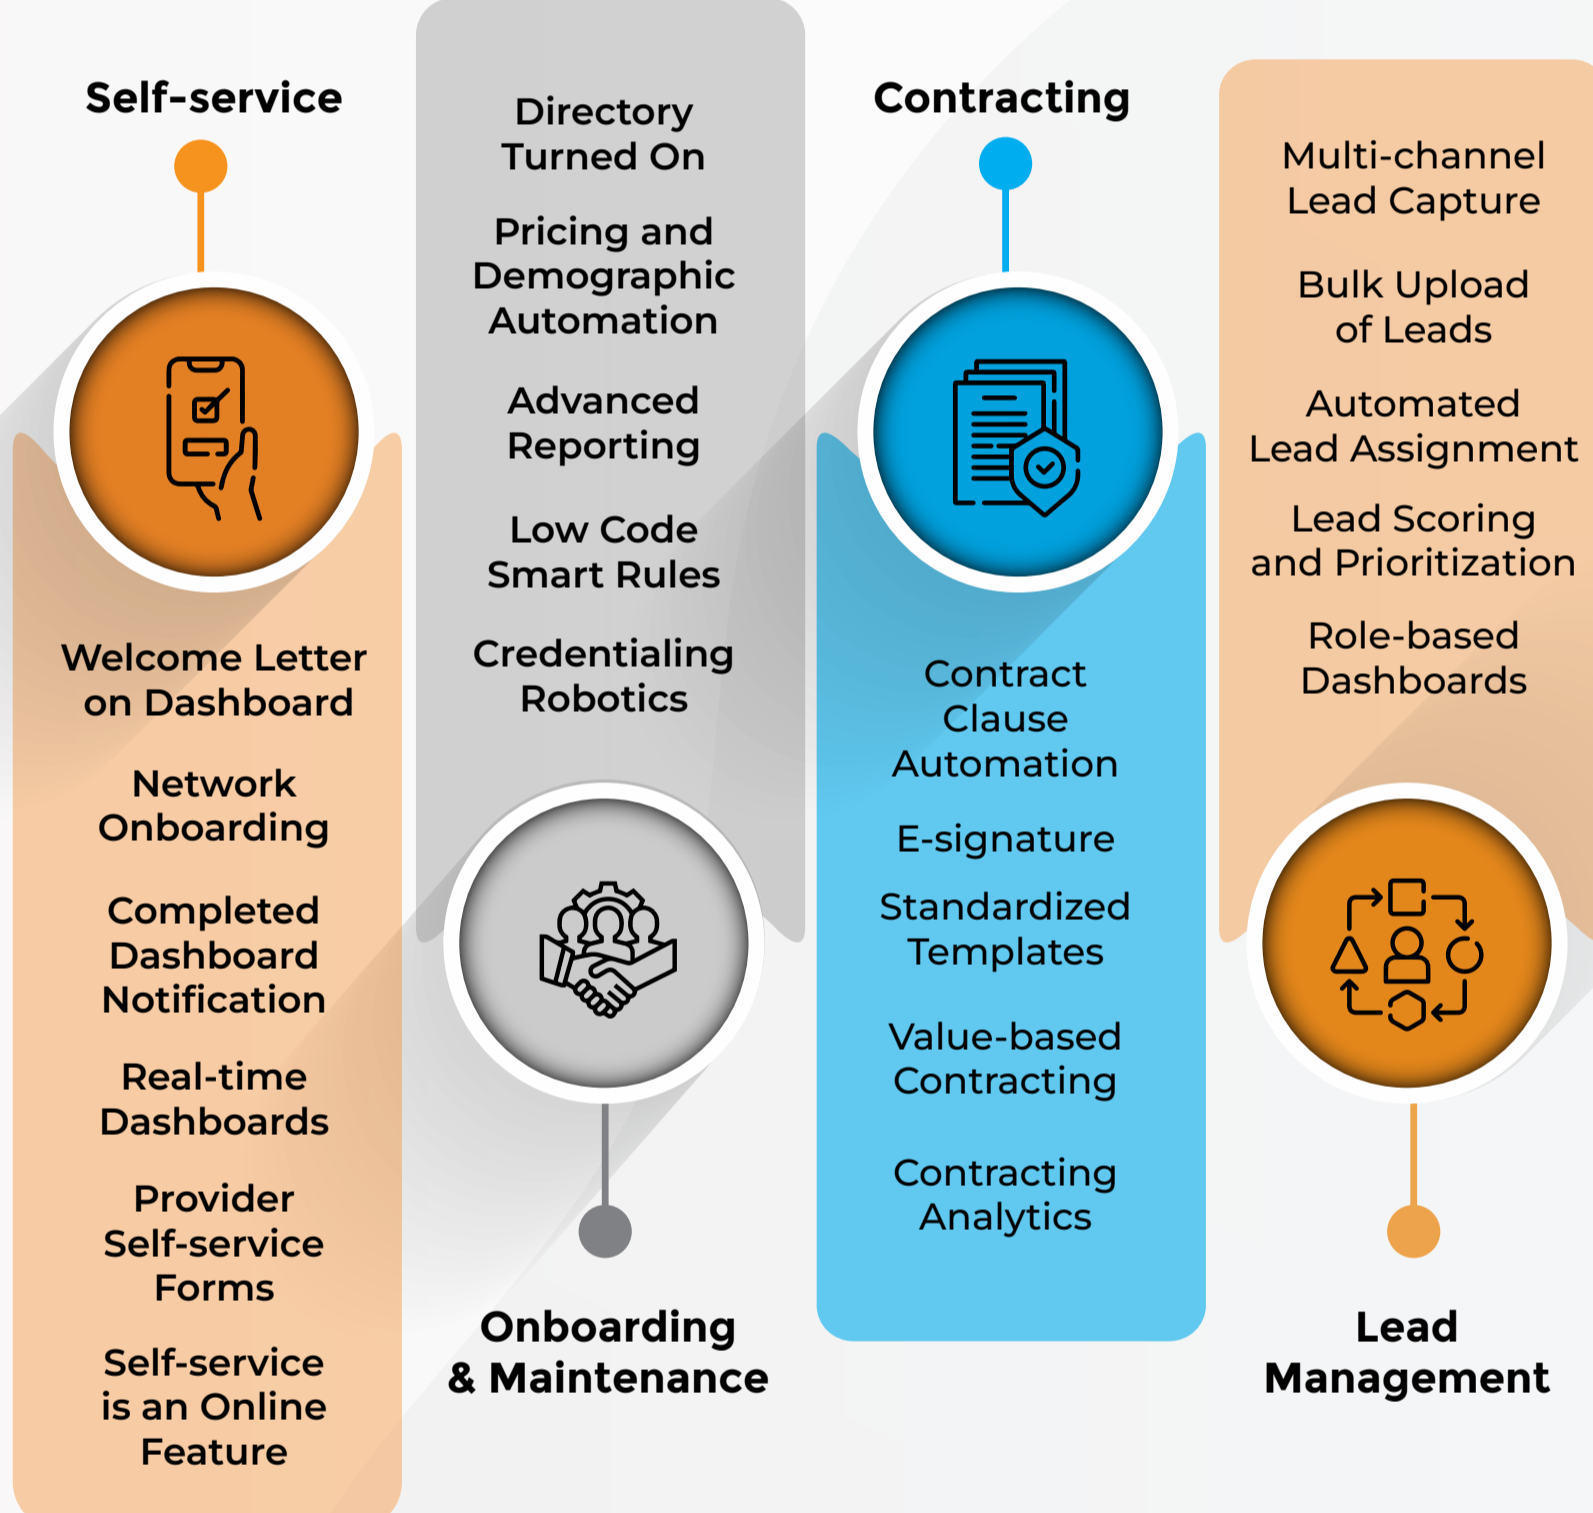

This solution expedites provider processing for members to engage quicker and mitigates CTM complaints

Newgen's advanced automation processing enables the members to have transparency of provider engagement, health screening visibility and preventative healthcare

Unified platform that can be leveraged across multiple states, products and complex provider onboarding

Agile IT/Business solution to gap fill a current Provider Data Management (PDM) solution or a complete end-to-end process utilizing the latest RPA/AI
