Chai Pe Charcha - 2022

The Newgen CSR team brought 2022 to a close with 'Chai pe Charcha'— an interactive session for the mothers in NDDP (Newgen Digital Discovery Paathshala). It was attended by over 470 NDDP students and their mothers.

Here are a few interesting quotes shared by the mothers-

"I witnessed a positive transformation in my kid. The NDDP sessions have helped enhance her interest in academics. She never misses any session and motivates other students to join in as well." **-Nandini**
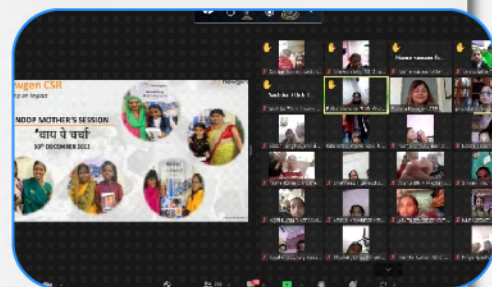

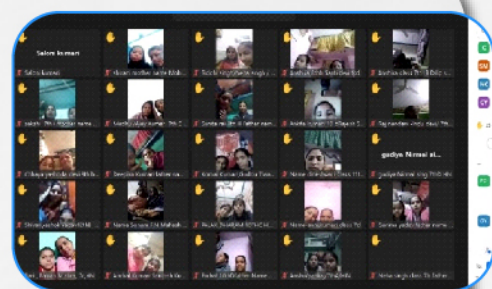

"My daughter is lucky to have been enrolled in NDDP. She has learned how to use smart devices for her studies, be disciplined, and communicate properly. This has worked wonders for her confidence. I attend the NDDP sessions with her too. My daughter has empowered me digitally by explaining how to use the smart device for research. Currently, she is teaching me how to prepare a PowerPoint Presentation." **-Lata**

"I am a single mother and NDDP has come as a boon for me and my two girls. It has helped me a lot in supporting my children's education by providing smart devices. They are now at par with their peers in their studies. NDDP has given both my daughters a direction to learn and achieve more in life." **-Neeti Priya**

"My daughter has always had the spirit to do something in life and I have always been her backbone. With NDDP being a part of her education, I can see my daughter work hard and be more focused." **-Sakila Khatoon**

"My daughter's teachers and I are impressed with her academic performance after attending the NDDP sessions. She has become the class monitor and I am happy to see her growth." **-Radha**

"The day my daughter got the smart device from NDDP, she was jumping with joy. She finds the NDDP sessions informative and doesn't feel the need to go for tuition. She uses her device to get all the relevant details she needs for different subject topics." **-Krishna**
