

TEACHERS' DAY 2023

"In Their Own Words: Teachers' Feedback on NDDP Program Initiative"

The response we received on Teacher's Day 2023 far exceeded our expectations. Being the primary stakeholders of the NDDP program, the teachers were deeply honored and moved by the token of appreciation they received at both Harkesh Nagar and Tekhand School. The NDDP facilitators extended their warm wishes for the contributions of the teachers to the NDDP program. We also captured some remarkable feedback from the teachers on general education and the NDDP Labs deployed within the schools.

Such occasions provide us with a genuine insight into the implementation of our program in schools. Teachers play a crucial role as key stakeholders in the NDDP initiative. Therefore, their feedback is regarded as invaluable for our program.

Insights & Feedback from the Samarth Shikshaks:

"The recently held STEM workshop has helped the girls discover their potential and scientific abilities. I'm delighted that NDDP offered them a hands-on learning experience." – Ms.Monika, Tekhand

"I was amazed when I saw the students sitting so well-behaved in the NDDP class. Usually, we don't see them like this during our regular classes. It's a remarkable change." – Ms.Nazia, HN

"It's a meaningful program that is providing a unique dimension to the lives of the NDDP girls." – Ms. Sheetal, Principal (HN)

"Students eagerly look forward to NDDP classes. They'll go to great lengths to ensure they don't miss any NDDP periods, even if it means skipping other classes." – Ms.Gauri, Tekhand

"The students had already acquired the skill of creating PPTs through their I-pad sessions. This made my job as a computer teacher much easier." – Ms. Puja, Tekahnd
