

The NDDP BENEFICIARY “Dreamers. Thinkers. Doers”

Manisha (name changed), class XI

————— ● ● ●

“My score elevated to 65% in 10th standard with the help of online sessions.”

I received NDDP device on my birthday and felt like a princess. The online sessions are way too different, more elaborative, informative, and pictorial. Sessions webbed like a story gave a worldwide view of subjects and it’s a whole new episode altogether.

Career counselling helped us a lot. We never had a clear vision of any career, earlier it was too vague.

Debate sessions are my favorite-I never thought to be a debater. During 1st debate session, other participants spoke so well it made me nervous but that induced more confidence.

Completing school home work was torturous but now it is so easy, no scolding from teachers.

Sometimes, I don’t even open textbooks to study as the topics already learnt in NDDP. My score elevated to 65% in 10th standard with the help of online sessions.
